MANAGEMENT**

WHY CHOOSE AFRE AND AGRIBUSINESS MANAGEMENT?

STARTING SALARY

\$45-82K

for most ABM graduates

GREATER THAN

90%

job placement upon graduation

The Agribusiness Management (ABM) program focuses on system-wide business and managerial functions performed by organizations throughout the agribusiness sector.

The major gives students the flexibility to choose courses related to their individual interests in farm management, commodity procurement and marketing, labor and personnel management, public policy and global food issues.

ABM is an amazing alternative route to a business career. The U.S. Department of Agriculture estimates that there are many more agribusiness careers available than there are qualified people to fill them. If you see yourself as a leader, innovator, or entrepreneur the agri-business management major is for you.

The ag-business industry is essential and our graduates are making it better. After graduating, our students rise quickly, taking on management and leadership positions in innovative companies both big and small or even run their own businesses.

We stay connected with you every step of the way. We don't just offer a world class education in business, finance, economics, and supply chain; we connect you with our professional and alumni network to help you find a job you'll love.

“The wide range of AFRE classes offered to students allows for students to learn about every aspect of the agricultural industry with a wide range of perspectives. No matter where I end up in the industry, I feel as if I am prepared with the knowledge to help me to be successful.”

-Emily Finkbeiner

“The Agribusiness program definitely prepared me for a career across the complete Ag and Food sector, from Produce marketing to Food retailing. Additionally, the industry connections and opportunities available through the program were invaluable, and are in large part responsible for my success today.”

-Sarah Quackenbush, ABM Alumni

RECEPTION AREA

“After interning with ADM, I was able to get a feel about what a career in the industry would feel like. I was able to apply what I had been studying with my agribusiness degree with real world situations and markets. Being a Spartan helped me not only to be prepared for the position, but also to network with others throughout the company.”

-Logan Leen

Watch

“My involvement in clubs and student organizations has been the premier highlight of my college experience. My involvement has opened many doors into the professional world.”

-Marley Huijgen

“Not only was I able to widen my network within the university, but I was also exposed to a wide range of events that helped grow my network outside of class and within the industry.”

-Lupe Martinez, ABM Alumni

DEPARTMENT OF AGRICULTURAL, FOOD, AND RESOURCES ECONOMICS

The Department of Agricultural, Food, and Resource Economics (AFRE) is one of the preeminent agricultural economics departments in the world. AFRE prepares the next generation of economists and managers to meet the needs of the food, agricultural, and natural resource systems in Michigan and around the world.
