SOME NOTES ON THE HISTORY OF

The Farm Management Department and the Agricultural Economics Section of the Economics Department and the merger of the two groups into the Department of Agricultural Economics

Farm management extension work at Michigan State University was started Nov. 1, 1912 by the appointment of C. P. Reed. The work was "temporarily" terminated 10 1/2 years later on June 30, 1922 by the resignation of H. B. Killough. No records are available of mimeograph publications for that period.

Farm management extension work at Michigan State was re-initiated about 6 years later by the appointment of Herbert A. Berg on October 1, 1928.

The first recorded and bound item of the Farm Management Mimeograph Series was an un-numbered item dated May 1927, "Summary of the Year's Farm Business, 25 Farms in the East Lansing-Okemos Area," by E. B. Hill.

In January 1928, four un-numbered mimeo reports were published on the corn borer situation in four counties--Lenawee, Livingston, Monroe, and St. Clair.

These four corn borer reports were followed by F. M. Mimeo No. 5 entitled, "Farm Business Analysis Studies in 114 Farms in Eaton and Oneida Townships--Eaton County." Apparently the four "corn borer reports" were then (in retrospect) considered as F. M. Mimeos 1, 2, 3, and 4.

The F. M. Mimeo Series was then continued until the merging of the Department of Farm Management and the Agricultural Economics Section of the Economics Department into the Department of Agricultural Economics on May 1, 1949. The last F. M. Mimeo number was F. M. 453, "Beef Costs and Returns, 1948," by K. T. Wright of the Farm Management Department in July 1949. The first Ag. Econ. Mimeo was No. 454, "Dairy Costs and Returns" in July 1949, by Timothy Hodge, a member of the staff of the new Agricultural Economics Department.

The Agricultural Economics Section of the Economics Department started a numbered Mimeo series with AE 1, "What People Said About Michigan Potatoes" by M. E. Cravens, August 1947. Only AE 1, 2, and 3 of this series are to be found in the bound volumes of department publications in the Ag. Econ. Reference Room.

Included in the bound volumes of the Ag. Econ. Dept. are many other mimeos, some un-numbered and some numbered outside of the regular department series. For example, the Grassland Farming Committee of which E. B. Hill was chairman put out a Mimeo #1 entitled "Farmer's Experiences with Grass Silage." Also, the Balanced Farming Section of Farm and Home Planning put out an F. H. 1, 2, and 3 as the only numbers in this series.

THE NEW AGRICULTURAL ECONOMICS MIMEO SERIES

The A. Ec. mimeo series continued through A. Ec. Mimeo 989, "A Proposal to Establish Experimental Rural Training and Development Centers in Central American Countries," by O. Ulrey in December 1964.

At that time it was decided to divide the series into two groups (1) Agricultural Economics Reports for general distribution and (2) Agricultural Economics Miscellaneous for items limited to departmental use. A. Ec. Mimeo 990, "Bibliography of Farm Management and Agricultural Economics Mimeographs, 1927 - 1964," was then printed as the last item in the old series.

Agricultural Economics Reports are numbered consecutively, beginning with Number 1, January 1965, "Beef Futures," by John Ferris.

The numbering of the Agricultural Economics Miscellaneous series is recurrent, beginning with "1" each January. The first item in this series is Number 1965-1, "Analysis of Frozen Fruit Pies," by Mary Zehner, printed in February 1965.
