

2015 BHEARD Scholar
Angelo Baptista Alface

Profile

Country of Study:	Brazil
University:	Federal University of Vicosa
Department:	Agricultural Engineering
Student Position:	Graduate Research Assistant – M.Sc.
Hometown:	Chimoio, Manica Province, Mozambique
Home Institution:	Zambezi University
Home Position:	Deputy Director for Administrative Area of the Faculty of Agronomy and Forest
Mentored By:	University: Silvio Pereira Bueno, Professor

Research Area: *Water and Environmental Resources*

BHEARD PROGRAM START DATE: March 2016

UNDERGRADUATE EDUCATION: Agricultural Engineering, Polytechnic Institute of Manica, Mozambique

RESEARCH INTERESTS: Due to a shortage of precipitation in Mozambique, there is a need to use water efficiently for agriculture to ensure for continuous food production. With this research it will be important for Angelo’s institution to start doing similar works in other hydrographic basins in the country.

PERSONAL STATEMENT: In the brief future, Angelo would like to complete his doctorate degree in the same area, to require more knowledge and become a specialist in the area of irrigation in his country.

WHEN I AM NOT WORKING I ENJOY: Angelo likes to watch football and read articles about agriculture to satisfy his curiosity.
