Systems Integration and Sustainability**

2012 Rachel Carson Distinguished Lecture

Paradigm shifts in freshwater fish conservation: moving towards the ecosystem services concept

Ian Cowx

*Professor of Applied Fisheries Science
Director, Hull International Fisheries Institute
University of Hull, U.K.*

Dr. Cowx has extensive experience in management strategies for freshwater bodies and aquaculture in developing and developed countries. His current research focuses on fish capture techniques, stock assessment for management purposes, rehabilitation of inland fisheries and aquatic resource management planning.

**Wednesday, Dec. 12 • 3:30 p.m.
Red Cedar Room, Kellogg Center**

The 2012 Rachel Carson Distinguished Lecture is presented by the Center for Systems Integration and Sustainability and the Department of Fisheries and Wildlife and supported by the National Science Foundation; the MSU offices of the President, Provost and Vice President for Research and Graduate Studies; the College of Agriculture and Natural Resources; and MSU AgBioResearch.

Dr. Cowx's lecture is open to the public and will be followed by a reception.
