

**MSU Center for  
Systems Integration and Sustainability**

## **2014 Rachel Carson Distinguished Lecture**

# ***Reconnecting People to the Biosphere***

## **Carl Folke**

*Founder and Science Director,  
Stockholm Resilience Centre*

*Member,  
Royal Swedish Academy of Sciences*

*Director,  
Beijer Institute of Ecological Economics*

Dr. Folke's extensive experience in collaborations between natural and social scientists has made him a powerful voice in global resilience. His work emphasizes that people are part of and dependent on the resilience of the biosphere and the broader Earth system and at the same time shaping it from local to global levels.

---

**Tuesday, Feb. 25 • 3:30 p.m.  
Lincoln Room, Kellogg Center**

---

The 2014 Rachel Carson Distinguished Lecture is presented by the Center for Systems Integration and Sustainability and the Department of Fisheries and Wildlife and supported by the National Science Foundation; the MSU offices of the President, Provost and Vice President for Research and Graduate Studies; the College of Agriculture and Natural Resources; MSU AgBioResearch; International Studies and Programs; and the Environmental Science and Policy Program and Sustainable Michigan Endowed Project.

Dr. Folke's lecture is open to the public and will be followed by a reception.
