Project Knowledge:

1. What is the normal body ter	mperature for swine?
2. How long is a sow's gestation	on period?
	ewly acquired animals away from your herd to ensure the health
5. What is the FDA responsible	e for?
6. How are drug residues usual	ly detected in animals
7. T/F. Breeding sows are term	inal sows.
Match the following definition	s to the correct Answer:
1. Barrow	a.) Salt, calcium, phosphorus, magnesium, potassium
2. Marbling	b.) Most important nutrient to humans and animals
3. Piglet	c.) Female pig that has not had any litters
4. Dam	d.) A castrated male pig
5. Water	e.) Copper, iodine, iron, manganese, selenium, zinc
6. Belly	f.) Education program designed to help pig farmers and Their employees continually improve production practices
7. Macro Minerals	g.) Mother of an animal
8. Trace Minerals	h.) Baby pig
9. Gilt	i.) Portion of pork carcass where bacon comes from
10. Pork Ouality Assurance	i.) The flecks of white fat that are present within a muscle

Additional Project Book

REQUIREMENTS

Novice (first year): Pick one item from list below and complete.

Juniors (11-14): Pick one item from the list below and complete.

Seniors (15-19): Pick two items from the list below and complete.

- *Create a pedigree or lineage chart for your project animal.
- *Create a chore chart of daily, weekly, and monthly chores necessary to properly care for your animal.
- *Create a crossword puzzle with terms/definitions that related to your swine project.
- *Create a picture and label the parts of your or a hog. (Not something already completed online).
- *Make a retail meat cut diagram and include where the cuts come from on the hog. What is the most expensive cut right now on the market?
- *Go to the store and write down the current retail cost per pound on at least 10 different pork products. Type up your findings in an organized manner. (Different steaks, brats, ham, soup bones, etc.)
- * Research and provide a summary of by products that could come from your swine project.
- * Research and write an essay on a common disease the pork industry is facing today including prevention, treatment, symptoms, diagnosis, best practices, etc.
- *Write an essay about at least 5 different breeds or cross breeds leading the pork industry in the US today. Include heritage, physical characteristics, nick names, merits, etc.
- * Tell us about your ideal market hog. Be descriptive and include what physical traits your ideal market hog has that your current hog does not.
- *Another project of your own creation that illustrates your knowledge of your project. Check with your 4-H leader or 4-H Coordinator if you need assistance.
